

# **Simplify Your Process. Expand Your Capabilities.**

**Versatile Foam Packaging Solutions  
Reliable Protection For Any Shipment  
Complete Line Of Supplies And Equipment**

# Foam Applications

## Packaging

- “Cocoons” the parts and reduces part movement
- Heavy parts are “engulfed” in the foam
- Cost effective vs “peanuts” and bubble wrap (Labor savings)

## Flotation

- Provides protection against sinking
- Longer flotation times to provide safety
- Buoys, Safety jackets, Marine (NMMA)
- Compliant with USCG approvals

## Molding

- Custom size and design options
- Cost effective vs EPS and molded foam parts
- Insulated packaging
- Coolers, insulated crate shipments (medical, organ transport)

## Structural

- Durable, weight bearing
- Building projects, structured blocks
- Strength support for wood, concrete, plastic, and other materials

## Applicable Foam Densities

### Packaging

- 0.40 lb
- 0.50 lb. Fast
- 0.60 lb. UT
- 0.75 lb.
- 1.0 lb., 1.0 lb. Flex

### Flotation

- 2.0 lb. Float
- 6.0 lb. Float

### Molding

- Any Density

### Structural

- 2.0 lb. Slow
- 4.0 lb. Slow

# Equipment and Supplies

E-Z Flow Foam Systems offers a complete line of foam equipment and supplies designed to improve packaging efficiency and product protection. Our solutions help businesses achieve consistent foam quality, reduce labor costs, and enhance productivity across various industries.

## Bagging Machines

- Automated Bagging
- Custom preset bag sizes
- Custom foam in bag
- Pillows
- Foam kept contained in the bag
- No exposure to foam

## Handheld Machines

- No large space needed
- Unlimited size options
- Large size or multiple items in the same box
- Handheld fills all void space
- Hose offers flexibility to move
- Easy to Self-Maintain

## About E-Z Flow Foam Systems

As part of American Polymers Corporation, E-Z Flow Foam Systems, designs and manufactures high-quality polyurethane foam solutions for a wide range of applications. We offer foam in multiple densities along with compatible equipment, accessories, and supplies—engineered for ease of use, reliable performance, and exceptional value. Our customer-focused approach ensures the right foam solution for every environment, anywhere in the U.S. or around the world.
