

E-Z Flow Foam Product Line Overview

Smart, Reliable, and Cost-Effective Protection for Every Product

The E-Z Flow Foam product line delivers high-performance foam-in-place packaging solutions engineered to protect products of all sizes and weights. From delicate consumer goods to heavy industrial components, E-Z Flow Foam ensures consistent quality, easy handling, and superior product protection — every time.

Product Lineup

Product	Description	Ideal Product Weight Range	Industries
EZF 0.50	Our lightest formulation for delicate or lightweight goods, where minimal foam volume is required.	Up to ~100 lbs	Consumer Goods, Electronics, Medical Devices, Fragile Items
EZF 0.75	Our second-lightest formulation for delicate or lightweight goods, where minimal foam volume is needed.	Up to ~135 lbs	Consumer Goods, Electronics, Medical Devices, Fragile Items
EZF 1.0 Slow	Medium-density foam offering a balance of flexibility and firmness — Slow rising for placing large items.	Up to ~300 lbs	Consumer Goods, Electronics, Automotive Parts, Medical Devices, Airplane Parts, Fragile Items
EZF FLEX 1.0	Flexible, medium-density foam designed for packaging delicate or irregularly shaped products.	Up to ~300 lbs	Consumer Goods, Electronics, Medical Devices Automotive Parts, Airplane Parts, Fragile Items
EZF 2.0 Slow	High-density, slow-reacting foam that expands to fill large voids. Not for packaging. For flotation, insulation, and void fill.	Structural / Coastguard Certified	Void Fill, Flotation, Boats, Insulation
EZF 2.0 Fast	Same density and strength as EZF 2.0 Slow, with a faster reaction time for higher throughput and efficiency.	Structural / Coastguard Certified	Void Fill, Flotation, Boats, Insulation
EZF 4.0	Structural Foam, Molding		Wood Substitute, Concrete Substitute, Insulation
EZF 6.0	Structural Foam, Molding		Wood Substitute, Concrete Substitute, Insulation

Key Benefits

- **Superior Protection** – Expands to form a custom mold around your product.
- **On-Demand Efficiency** – Reduces waste and labor time.
- **Versatile Performance** – Protects items from 1 lb up to 300 lbs.
- **Consistent Quality** – Reliable results.
- **Cost Savings** – Minimize damage claims and material costs. Cheaper than bubble wrap and peanuts.

Simplify Your Process.
